HYGIENIK SYSTEMS LTD
Suppliers and installers of hygienic wall and ceiling linings
t: 01274 355777 / 355778

Superior systems and customer service

Hygienik Systems specialise in the supply and installation of premier quality PVC wall and ceiling systems.

All of our systems help to establish a clean, bright, hygienic and easy to clean environment.

Whether projects are new build, or refurbishment, we keep disruption to a minimum and deliver bespoke solutions.

We have a nationwide customer base that spans many market sectors and we have established many ongoing partnerships with leading contractors.

Responsive service

All interior surfaces need to achieve a combination of great design and functionality. We combine these elements to create attractive, professionally fitted surfaces that are hygienic and low maintenance.

Unlike many of our competitors we provide a full range of services including installing permanent dividing walls, fire walls, sealed chambers and walk-on ceilings.

Our attention to detail is excellent, from the moment you contact us. Many of our customers and trade partners have commented on our very high standards of customer care, technical expertise and reliability. With our ingenious systems, you don't have to rely on wishful thinking.

Why you should choose Hygienik Systems

1 Bespoke designs

Our flexible systems will meet your specifications and neatly accommodate corners, recesses, joists, fixtures, pipes, electrics and machinery

2 Cost-effective solutions

As a long lasting, sustainable alternative to ceramic tiling, plaster and paint, our systems offer exceptional value

3 Supreme hygiene

Our systems are ideal for all areas where strict UK and EU Health & Safety regulations apply

4 Robust and durable

Unlike tiles and plaster, our expertly fitted, impact-resistant PVC panels will not chip, crack, bruise, flake or allow fluid ingress

5 Attractive and practical finishes

Available in pure white and a range of imaginative colours and designs. Ideal for customer-facing or 'back of house' areas

6 Wipe clean surfaces

Stain-resistant finish means speedy cleaning times

7 Safety first

Our systems are food taint tested and fire safety tested. Full technical data at www.hygienee.com

8 Reliable service

We'll do our part to help you meet deadlines on time and on budget

9 Free technical advice

We offer free advice on projects of all sizes and will arrange free site surveys on request

10 Experience

Our team has more than 25 years specialist experience in wall lining systems and we have pioneered many system innovations.

Manufacturing

Across the spectrum of manufacturing, there is a need for cost-effective, low maintenance and long lasting wall linings.

Industries involved in food, confectionery and drink manufacture also need to maintain strict hygiene standards and our systems can play a key role in establishing a clean and bright environment.

Food-related manufacturing

●	abattoirs and cold stores
●	meat and poultry processing plants
●	food manufacturing plants
●	bakeries and confectionery plants
●	dairies
●	soft drinks plants
●	breweries

General manufacturing

●	canteen areas
●	production areas
●	changing and shower areas

Specialist manufacturing

●	packing and packaging
●	detergents and cleaning fluids
●	pharmaceuticals
●	cosmetics
●	electronics
●	pet food
●	industrial laundry services

Freshpack Foods / Johnson Cleaners / Nestlé / Purity Soft Drinks
Scotts Packaging / Timothy Taylors Brewery / Tulip Foods

Retail

Hygienik Systems has experience in customer-facing and 'back of house' projects. Our systems create a bright, clean and attractive environment within department stores, supermarkets, shopping centres and food court areas. A choice of patterned and coloured decorative finishes is available.

We can transform a whole area within a week, creating new dividing walls, new changing room areas and picking and packing areas. The durability of our systems also makes them suitable for storage bays and even specialist areas like car wash interiors.

●	store interior cladding (front of house)
●	store interior reconfiguration (front of house)
●	storage areas (back of house)
●	shopping centre refurbishment
●	garage forecourts and car wash areas

Top, middle and bottom right: Asda, West Bridgeford, Nottingham
Bottom left: Morrisons Car Wash, Bell Vale, Liverpool

Asda/Cribbs Causeway Shopping Centre / House of Fraser / John Lewis / Kwik Save / Lakeside Shopping Centre
Marks & Spencer / Meadowhall Shopping Centre / Morrisons/Pizza Hut / Sainsbury's

Healthcare

The hygienic and low-cost properties of our systems make them ideal for all branches of healthcare provision.

We have been involved in major PFI hospital projects and also in smaller-scale environments where maintaining strict levels of hygiene is essential.

●	NHS hospitals – PFI new build and maintenance
●	care homes
●	surgeries – doctors, dentists, vets
●	day care centres
●	medical laboratories
●	chemists
●	mortuaries

ViraScreen™ takes hygiene to another level

Hygienik *ViraScreen*™ provides unprecedented levels of hygiene and is suitable for all hygiene-critical areas, including hospital operating theatres.

It prevents the spread of bacteria and has been proven to work against the MRSA virus that has been highlighted as a problem in some hospitals.

ViraScreen™ safely prevents bacteria, moulds and viruses from proliferating on the surface. It does not use any toxins and it provides a durable, scratch-resistant surface.

Properties of Hygienik *ViraScreen*™:

- anti microbial effect – even on MRSA (mod. AATCC 100)
- long-lasting performance, the active ingredient does not fade or wear away
- high chemical resistance
- extremely durable and scratch resistant
- easy to clean and maintain

Leisure

We specialise in two separate areas – food-related and recreation-related markets.

Commercial kitchens are one of our key markets. We have transformed outdated kitchen areas into bright, modern and hygienic places for some of the world's best know fast food restaurants and for specialists in the preparation of in-flight meals. We also work with specialist trade kitchen designers including Brakes, Airedale, 3663 and Waltons.

Our wet room systems are very popular in leisure centres as a cost-effective and low-maintenance alternative to ceramic tiles. We have experience in fitting swimming pool surrounds and shower, changing room and wc wall linings in a variety of leisure industry locations.

Food-related leisure

- restaurants
- commercial kitchens
- hotels
- public houses
- airports

Activity-related leisure

- sports and leisure centres
- swimming pools and spas
- health farms
- holiday resorts (Center Parcs)
- golf clubs
- football/rugby/cricket clubs
- venture scout accommodation

Airedale / Batley Sports and Recreation Centre / Belfast Airport / Bingley Pool / Burger King / Center Parcs
Gatwick Airport / Heathrow Airport / High Peak Venture Scouts / Luton Airport / McDonalds / Manchester Airport
Pizza Hut / Richard Dunn Sports Centre / Waltons / Whitewell Inn Hotel and Restaurant

Local Authority

Value for money and sustainability are the priorities for many local government refurbishment projects. That's why there is a growing demand for our durable and cost-effective systems.

Our PFI and PPP new build projects have included a group of 6 schools in the Scottish Highlands, for the Highlands Council based in Inverness. We have also worked with Councils in Kirklees, Tower Hamlets, Cheshire, Birmingham, Leeds, Manchester, Oxford, Bradford, Manchester and Teesside.

●	schools – PFI refurbishment projects
●	schools – PPP new build projects
●	college accommodation
●	civic buildings
●	community centres
●	youth hostels
●	libraries
●	prisons, detention centres
●	public conveniences

All: Copthorne Primary School, Bradford

Bradford Metropolitan Council / Highlands Council / Calderdale County Council
Kirklees Active Leisure / High Peak Adventure / Youth Hostel, London

Architects and Specifiers

Hygienik Systems can advise architects on a number of cost-effective wall and ceiling solutions for all of the markets previously mentioned.

We pride ourselves on our professionalism and we can respond with imaginative solutions at the concept stage. We are experts in materials and safety considerations and we fit both conventional and non-standard configurations.

We have a good track record of working productively with architects, specifiers and surveyors and can be relied upon to provide a responsive and comprehensive service. We provide:

- advice on materials and cost
- guidance on feasibility
- knowledge of fire and H&S regulations
- extensive fitting experience
- CAD-based drawings

Trade Partners

Partnering contractors and architects has always been a major part of our service.

We are comfortable dealing with professionals and can provide technical specifications, CAD drawings and innovative ideas on request. We like a challenge and enjoy working with perfectionists. We work with:

●	construction contractors
●	catering contractors
●	shopfitting contractors
●	local authority partnering teams

Hygienik Systems main components

All components are available in a range of standard sizes.

H-Panel	10mm PVC panel
C-Plank	10mm hollow form plank
K-Panel	2mm, 2.5mm and 3mm panel
G-Grid	suspended ceiling systems
Soundmaster	up to 300mm thick firewall systems
Safety Flooring	choice of PVC vinyl finishes

Temporary screening

Hygienik Systems has identified a growing need for re-locatable temporary hoardings which shield customers, staff and visitors from refurbishment work during store opening or office hours. We have a preferred supplier in this market and we will pass on their details to you on request.

Hygienik *ViraScreen*™ is available as H-Panel, C-Plank and K-panel.

We can help you specify a bespoke solution for your project.

For technical details and downloadable files detailing our fixings, please go to www.hygiene.com or call our Customer Helpline.
